

Skyline Health Services Director, Jim Bennett, Honored at Leading Age WA

At the 2015 Leading Age Washington conference, Jim Bennett, Skyline Health Services Director, was honored as the recipient of the Dr. Herbert Shore Outstanding Mentor Award. “No one cares what you know until they know that you care” - this is the credo that Jim Bennett lives by, and it is clearly seen and felt by the staff working with him, and in residents and family members under his care. Whether it is pausing to sit down and start an impromptu chorus of “You Are My Sunshine” with residents residing in Memory Support, or taking the time to comb through long term care insurance policies for future Assisted Living residents, Jim Bennett leads by example. Although it is impossible to account for all of the achievements and contributions of a 30-plus year career, there is no doubt that the greatest contribution of his career is the legacy of leadership that will continue to shape the industry for generations to come.
